2. Microsoft Azure Data Fundamentals: Explore relational data in Azure

3. Microsoft Azure Data Fundamentals: Explore data analytics in Azure

4. Implement a Data Streaming Solution with Azure Stream Analytics

5. Understand data concepts

The image displays three sequential screenshots of the Microsoft Learn 'Achievements' page, illustrating the user's progress through the 'Understand data concepts' module.

Top Screenshot: The page shows the 'Achievements' section for the 'Get started with data concepts' module. The header reads 'Keep up the great work!'. Below the header, a circular icon represents the achievement. The text states: 'You have earned an achievement! Congratulations, but what should you do next?'. It then prompts the user to 'First, let's share your achievement' and provides a link to share the achievement on social media.

Middle Screenshot: This screenshot shows the 'Achievements' section for the 'Get started with data analytics' module. The header reads 'Keep up the great work!'. Below the header, a circular icon represents the achievement. The text states: 'You have earned an achievement! Congratulations, but what should you do next?'. It then prompts the user to 'First, let's share your achievement' and provides a link to share the achievement on social media.

Bottom Screenshot: This screenshot shows the 'Achievements' section for the 'Understand data roles, services, and products' module. The header reads 'Keep up the great work!'. Below the header, two circular icons represent the achievements: 'Understand data concepts' and 'Understand data roles, services, and products'. The text states: 'You have earned 2 achievements! Congratulations, but what should you do next?'. It then prompts the user to 'First, let's share your achievement' and provides a link to share the achievement on social media.
